

Salvage  
Scrap  
Rubber

President Sets  
June 15-30 Dates  
For Collection:  
On Radio Today

WASHINGTON, June 12.—(AP)—President Roosevelt announced today an intensive campaign for collection of the nation's old scrap rubber supply would start June 15 and last through June 30.

Individuals were urged by the chief executive to search their basements, attics and back yards for all items of rubber that have been discarded or can be discarded.

Offices, factories and farms also are being asked to cooperate.

Filling Station Depots

Through arrangements with the oil industry 400,000 filling stations will serve as collection depots. They will pay one cent a pound for the rubber brought in, and the government will reimburse them that sum.

President Roosevelt, declaring that the rubber situation was extremely serious again urged the people to cut down on pleasure driving and reduce both automobile speed and mileage.

He told a press conference he had no idea when a person with four tires might be able to get new ones. It may be a long, long time, he said. So, he added, it is a matter of common sense to make existing tires wear as long as possible.

Uncertain about Tires  
Reporters noted that he had mentioned persons with four tires and inquired whether that meant that owners of five might not have five very long. The President said he did not know.

The collection drive will be inaugurated at 12:01 a. m. on Monday, June 15 and concluded at midnight on Tuesday, June 30. Thus it will last through 16 full days. Actually the President will start it off informally with a five minute radio talk tonight at 5:45 o'clock, central war time.

Not For Money  
The campaign will be conducted

Out Of Sugar  
Certificates

Registration for canning sugar has been indefinitely delayed, due to the shortage of certificates in Missouri. Sedalia's supply of certificates was exhausted early this morning and a call to state headquarters, at Jefferson City, was in effect that no certificates could be obtained in the state, and it would probably be several days before another supply could be obtained from Washington.

To date more than 2,500 families have been registered for canning sugar at the court house, and as many more families are expected to be registered. Pettis counties are requested to watch The Democrat-Capital for an announcement when the certificates arrive and registering will continue.

Ellsworth Green, chairman of the Pettis County Rationing board stated that as soon as the certificates are received, there will be at least three to four more days registration at the court house, by the volunteer workers under the supervision of Mrs. Chester A. Wright.

Members of the rationing board stated that several persons have "repeated" on signing for sugar and if they do not return their certificates or make a satisfactory statement to the rationing board, they are subject to arrest and conviction by a federal court. A violator can be fined as much as \$10,000 or sentenced to ten years in a federal prison.

Joplin Express  
Office Is Robbed

JOPLIN, Mo., June 12.—(AP)—Two men held up the office of the Railway Express agency in the Frisco building here shortly before noon today and escaped with \$2,500 in \$1 bills which had just been delivered by police and a bank messenger for shipment to a Kansas City bank.

Carrying pistols and wearing colored glasses, the robbers held up Cashier C. S. Henry and M. F. Douglas, a clerk, before the currency could be locked in the office safe, and fled afoot.

Approval Is  
Given Record  
Tax Program

Millions And  
Even Billions May  
Still Be Added

WASHINGTON, June 12.—(AP)—A record-breaking \$6,000,000,000 program of new taxes has been approved tentatively by the house ways and means committee, with the prospect that more millions—perhaps billions—would be added before legislation reaches the house.

A tabulation today showed that the committee, approaching the end of a study of the administration's request for \$8,700,000,000 in additional revenue, already had agreed upon \$6,087,000,000, with votes remaining only on a few minor excise taxes.

Some Proposed Increases

The committee yesterday voted to double the present 5 per cent tax on fares paid for transportation; to raise the tax on a package of cigarettes from 6 1/2 cents to 7 cents; to increase the present cigar tax materially; to add 6 cents to the present 18-cent-a-pound smoking tobacco tax, and to jump the cigarette paper and tube levy to 1/2 cent on each package of 25.

Members said that once they disposed of a few other excise items they will face the question of stopping there or proceeding to consideration of a sales tax to help finance the war and control inflation. It has been estimated that a 5 per cent retail sales tax would raise \$2,500,000,000.

Discussing Various Taxes

As the committee took up a discussion of taxes on soft drinks, photographic equipment, transportation by pipeline and telephone and telegraphic communications, its accomplished work shaped up this way:

Individual taxes, 2,750,000,000; corporation taxes, \$2,500,000,000; mandatory joint returns by husband and wives, \$350,000,000; excise taxes, \$487,000,000.

The committee began moving more rapidly yesterday with votes on five excises. Should all the other excises be approved as the treasury recommended, the committee still would be about \$2,400,000,000 short of the treasury's goal.

Wind And Rain  
In Kansas City

KANSAS CITY, June 12.—(AP)—A violent rainstorm, driven by a 52-mile-an-hour gale, drenched Kansas City today.

Police said headquarters was swamped with reports of sputtering power lines and streets blocked by uprooted trees, principally in the south part of the city.

There were no reports of injuries. Many cars were stalled and some basements were flooded by water which storm sewers were unable to carry off.

Four armed bandits took advantage of the gale to stage a \$1,700 holdup. Fletcher C. Anderson, en route from a bank to his tavern in a cab, was crowded to the curb in a residence section and robbed. He had obtained \$1,700 to cash payroll checks.

All Damage In  
Coral Sea Battle  
Was By Aircraft

By Clark Lee

SOMEWHERE IN THE SOUTH PACIFIC.—(AP)—The Coral Sea battle was the first naval battle in history in which all damage was done by aircraft.

Surface craft used their weapons only as anti-aircraft weapons and never were in range of each other.

Both sides had aircraft carriers, cruisers, destroyers and submarines in the action and shell fragments from shells larger than eight inches which were found in some American planes indicated the possibility one Japanese battleship took part.

The battle was not decisive but in these respects was an American victory:

1. United States forces, although outnumbered, broke up a Japanese invasion fleet and drove it back to its base—the first time that has been done.
2. This gave valuable time to strengthen Australia and Pacific island bases.
3. The Japanese lost at least 13 vessels, plus two severely damaged. Those were far greater than United States losses and especially important because the United States can replace its losses more speedily than the Japanese.

Ample Supplies  
Of Pork For At  
Least A Year

EAST ST. LOUIS, Ill., June 12.—(AP)—Even if you have to give up your automobile or whack another inch off your trousers, it looks like you'll still be able to enjoy your share of pork chops and spare ribs.

This is the consensus of veteran hog men who predict, on the basis of booming hog sales, ample supplies of pork and lard for at least the next year.

While the run of hogs from the 1941 fall pig crops has been strong at all the big terminal livestock markets, the national stockyard market here has led the nation in salable receipts for 11 consecutive weeks.

Approximately 600,000 hogs have been handled here during this period and farmers have taken home with them close to \$18,000,000.

Other leading markets are Chicago, Kansas City, St. Paul and Omaha.

May Tax Plans

"If present trends in marketing may be taken as an indication," says Charles H. Hitchborn, editor of the St. Louis Daily Livestock, "the Free French out of Bir Hacheim, southern anchor of the British line."

Harmat, six miles south of the desert track crossing of Knightsbridge, around which has centered much of the battling in this German offensive, was the general scene of the engagement.

Knightsbridge is 25 miles southeast of Tobruk and about 15 miles west of El Adem.

Following withdrawal of the Free French from the desert plateau of Bir Hacheim on Wednesday night after a 16-day battle, front line dispatches said the Germans turned northeastward and struck toward Harmat.

Blocked there late yesterday, they sought to turn aside and last night were reported locked in a struggle between Harmat and El Adem.

Elks Complete  
Program For  
Honoring Flag

Public Invited  
To Exercises On  
Club Lawn Sunday

John K. Walsh, of Jefferson City, Americanism commissioner of the American Legion for the Missouri State department, will be the speaker at the annual Flag Day exercises to be held by the Sedalia Elks lodge at 2:30 o'clock Sunday afternoon on the lawn of the Elks home.

Hugo M. Sparr is chairman of the Flag Day committee, and will preside over the program.

All patriotic and civic organizations, Company F of the Fourth Missouri Infantry and the Boy and Girl Scouts have been asked to participate. The public is invited to take part in this observance of an important day of reverence for the American people.

S. C. Band Will Play

The Smith-Cotton high school band, under the direction of Ralph Guenther, will play four numbers. The first will be "The Star Spangled Banner", which will be followed by exercises conducted by Exalted Ruler Eugene Hansman of B. P. O. E. No. 125 and officers.

The Rev. Walter P. Arnold, chaplain of American Legion Post No. 16, after the audience sings "America" accompanied by the band, will give a talk on the history of the flag. He is chairman of the city Flag Day committee.

A special patriotic number will be played just preceding Walsh's address which will be on "Americanism."

Group Singing

The closing number of the program will be "God Bless America" by the band and audience.

Arrangements have been made for an amplification system and Mayor A. H. Wilks and Police Chief H. Anderson have granted permission to block off adjacent streets to the Elks home at Fourth street and Kentucky avenue.

Last year between 1,500 and 2,000 persons attended the Flag Day celebration at Liberty park. If it rains Sunday the services will be held inside the Elks home.

Bitter Battle  
At Tobruk

CAIRO, Egypt, June 12.—(AP)—British tanks are locked in a bitter battle with German armored forces about 30 miles southeast of Tobruk today in an effort to block the drive of three strong columns which turned northeastward toward that objective after forcing the Free French out of Bir Hacheim, southern anchor of the British line.

Harmat, six miles south of the desert track crossing of Knightsbridge, around which has centered much of the battling in this German offensive, was the general scene of the engagement.

Knightsbridge is 25 miles southeast of Tobruk and about 15 miles west of El Adem.

Following withdrawal of the Free French from the desert plateau of Bir Hacheim on Wednesday night after a 16-day battle, front line dispatches said the Germans turned northeastward and struck toward Harmat.

U. S. Loses Carrier Lexington,  
Bases In Russia May Be Used

Allied Leaders  
United On Program  
For Downfall Of  
Hitler And Peace

By Roger D. Greene  
Associated Press War Editor

Allied capitals rang with speculation today on the prospects of three vast and perhaps imminent developments aimed at the final downfall of Germany and Japan and the shaping of a new world at peace.

While Berlin sounded a new threat of Adolf Hitler's "coming great offensive," the United Nations envisaged:

1. Creation of a second front in Europe in 1942.
2. A possible Russian attack on Japan.
3. The opening of Soviet air bases to American bombers for attacks on Japan.

In Washington, congressional quarters expressed belief that the "full understanding" reached between President Roosevelt and Vyacheslav Molotov might open bases at Vladivostok to U. S. bomber squadrons.

"If the Russians give us the right to use those bases, I feel confident that the United States could bring Japan to her knees in a short time," declared Senator Wheeler (D-Mont.).

No Time For Japan

Others voiced the conviction that nothing in the mutual-aid agreement between the United States and Russia would precipitate the Russians into war with Japan while they were so heavily engaged with Hitler in the west.

It was noted, too, that the Russian-British agreement emphasized that it was directed against "Germany or any of the states associated with her in acts of aggression in Europe."

The treaty stressed the words "in Europe" seven times, clearly indicating Russia wanted to be free to maintain the status quo of an uneasy neutrality toward Japan.

China Anxious

Sorely pressed China watched anxiously, with the Chinese press bluntly calling on Russia to strike at Japan now.

In Generalissimo Chiang Kai-Shek's wartime capital at Chungking, the newspaper To Kung Pao declared:

"Russia should realize that the Japanese attack on the Aleutians (off Alaska) was a direct threat to Soviet Kamchatka and Siberia. Can Russia stand aside and watch the wildfire spread to her very gates? She must do some-

Booster Program  
This Evening

The first of a series of five summer programs will start this evening at Liberty Park in the band stand beginning at 8:15 o'clock. The programs this summer will vary from the programs of the past in as much as they will be entertainments with no contests, or prizes offered.

L. L. Studer, district storekeeper for the Missouri Pacific, will be the speaker of the evening and will be introduced by F. G. Rose Chief Booster who will preside.

A public address system has been installed and suitable parking arrangements will be under the supervision of the American Legion, and the public is cordially invited to attend these summer programs sponsored by the Missouri Pacific.

Tonight's program of entertainers include Neil and Eugene Hays instrumentalists and singers, Doyle Woodard, pianist, Ernest Mulberry vocalist, and the Missouri Pacific Buzz Sawyers Gadden Chilcoat and Eugene Hayter fiddlers, George and Al Johnson vocalists, Rosalee and Lullume Craig duet numbers, Pat Johnson, harp and guitar, Sarah Ellen Hayter, vocalist, and E. A. Jackson mandolin artist.

Two Weeks' Gasoline  
Reprieve In East

WASHINGTON, June 12.—(AP)—hard-boiled new gasoline rationing hard-boiled new gasoline rationing program next month, got a two-week reprieve today plus the good news that beginning Monday non-essential drivers may buy six gallons instead of three with each unit left on their ration cards.

The present temporary ration plan was scheduled originally to be replaced on June 30 by a regular coupon book system, but the office of price administration announced yesterday the changeover would be deferred until July 15.

8 Nurses In Bataan During  
Jap Attack Have Returned

SAN FRANCISCO, June 12.—(AP)—Eight U. S. Army nurses who worked gallantly at all hours for months during the intense Japanese assault on the Bataan peninsula have arrived in San Francisco.

Only a handful of the 85 who were stationed on the Philippine peninsula with Gen. Douglas MacArthur's forces, the nurses are under treatment at the Letterman hospital here as a result of their tortuous experiences, the army disclosed.

Twenty-two of the nurses who served on Bataan have been reported safe. The others presumably have been taken prisoner, or are missing.

Their story as told to Herald Tribune war correspondent Allen Raymond was one of four months of physical and mental torture, for they worked day and night in the filth and heat of the Philippine

jungles, prey to the same perils as the soldiers they served.

Some Are Prisoners.

Only eight of the little band of 85 nurses stationed at Bataan comprised the group reaching San Francisco and only 14 others have reached Australia, the newspaper said, adding that the remainder were presumably prisoners of the Japanese, or missing.

Included in their story of warfare and of last-minute escapes from Bataan and Corregidor was this description of the first bombing of the hospital at Bagio as related by Second Lieut. Juanita Redmond, army nurse corps, of Swansea, S. C., to the war correspondent:

"The first actual bombing came on the morning of March 17, shortly after 10 o'clock. At the time we had 30 Jap wounded prisoners.

Officer Lost  
In Battle Was  
From Midwest

(By The Associated Press)

Maj. Gen. Clarence L. Tinker, chief of the Hawaiian air force, reported missing in the battle of Midway, was a familiar figure in the Midwest.

He was born in the Osage nation near the Kansas-Oklahoma line November 21, 1887 and grew up in that vicinity. Tinker got his early education at a country school near Sedan, Kas., and an Osage boarding school at Pawhuska, Okla.

His father, once a member of the Osage Council, taught him the tribal tongue.

Tinker left Osage county to enter the Wentworth Military Academy at Lexington, Mo. After his graduation in 1908 he joined the Philippine constabulary as a second lieutenant. Four years later he was appointed an infantry lieutenant in the regular army. He transferred to aviation in 1920, served as assistant commandant for the advance flying school at Kelly Field, Texas, and commanding officer at Mather Field, Calif. Later he was chief of the national guard aviation division and then chief of the air corps supply division.

General Tinker has two sons and a daughter.

Committee Rejects  
Candy Sales Tax

WASHINGTON, June 12.—(AP)—Chairman Doughton (D-NC) reported today that the house ways and means committee had decided to reject a treasury-proposed 15 per cent manufacturers' sales tax on candy, but said the question might be reopened.

Without elaboration, Doughton told newsmen that committee experts had suggested that the candy tax might be considered along with a proposal to impose a one-cent tax on soft drinks retailing at not more than ten cents.

Secretary Morgenthau had estimated that the manufacturers' tax on candy and also chewing gum would produce \$45,300,000 and that the soft drink levy, plus an 80-cent-a-pound tax on carbonic acid gas used in unbottled drinks would raise \$146,900,000.

Fewer Car License  
Stickers Are Sold

That there are fewer motor cars being driven in Sedalia is shown by the fact that the number of new city license stickers sold to date is about 800 less than at the same time last year.

The deadline for the city auto license, before arrests will be made for driving without one, is midnight of June 15, according to W. B. Hert, Jr., city collector.

The tax for the cars is one of two sums, \$2.50 if the car is less than 25 horse-power, \$4.50 if 25 horse-power or over.

Remembering  
Pearl Harbor,  
They Attacked

U. S. Forces  
All Returned  
Without Injuries

By WALTER S. CLAUSEN

PEARL HARBOR, T. H., June 10.—(AP)—American fliers, many yelling "Remember Pearl Harbor" as they pushed their bombers into screaming dives, sank nine and possibly 11 Japanese warships at Tulagi Harbor, Solomon Islands, May 4 as a prelude to the Battle of the Coral Sea.

Participants in the battle said here today they were certain that two heavy cruisers, three light cruisers, two destroyers and two large transports were sunk. A seaplane tender and a third transport also possibly were sunk as well as numerous small boats.

Aircraft carrier squadrons delivered the furious assault and all returned without a scratch to their personnel.

More Later

Devastating as the blow was to the enemy, it was but a sample of what was to come, for one of the officers in the engagement said:

"We gave them a larger dose of the same stuff" in the ensuing battle of the Coral Sea, which lasted a week.

Lieut. Commanders Joseph Taylor, Danville, Ill., and William Burch, Paducah, Ky., vividly described the blistering attack on the enemy base 1,000 miles northeast of Australia on little Florida Island in the center of the Solomon group.

Order A Surprise

Burch said: "Aboard the carrier we had not heard anything about the little harbor of Tulagi until late one night when word was passed over the loud speaker: 'Prepare all squadrons for attack on ships in the harbor at Tulagi at dawn.' It was a complete surprise. Our

Call 25 More  
To The Army

Twenty-five more white men of Sedalia and Pettis County have been called into the service, under the Selective Service Act. They are to report for examination and induction at Jefferson Barracks on Thursday June 25. This call was received by the local board this morning and brings the month's total to 109, while another call is expected for the latter part of the month.

Men to be sent have already received their preliminary physical examination in Sedalia. The listing of the names will be announced the first of the week according to J. K. Kidd, Jr., clerk of the local board.

The Pettis County Selective Service Board is meeting today and probably will meet Saturday for the purpose of going through the classifications and reclassifying many registrants who were previously placed in 3-A, they will be placed in 1-A. The board is also continuing the classification of registrants of recent drafts, but it is expected to be several days before all registrants have either been re-classified or classified.

Another physical examination will be held next Tuesday at the court house when about 100 men will be examined.

Tanker Neosho  
And Destroyer Sims  
Also Lost; Most  
Of Crew Saved

WASHINGTON, June 12.—(AP)—The smashing naval victory in the battle of the Coral Sea cost the United States the 33,000-ton Aircraft Carrier Lexington, the navy disclosed today, in a summation which told of far vaster damage to a Japanese armada menacing Australia.

The Lexington sank, with relatively slight loss of life, in a post-battle explosion which spread fires the crew was unable to put out after it had "fought heroically for more than five hours" to save their ship.

From March 10 through May 8, the entire campaign cost the Japanese more than 15 ships sunk, 2 probably sunk and 20 damaged. The United States lost, besides the Lexington, only the tanker Neosho and the destroyer Sims, and a large part of their personnel was saved.

On May 8, the Lexington was made the main objective of Japanese aircraft which attacked while her own planes were absent. "These attacks were the last action in the battle of the Coral Sea," the navy said, and gave this description of the heroic fight which the officers and crew of the great carrier put up in their desperate attempts to prevent her destruction:

Explosion Rocked Ship

"The crew of the Lexington succeeded in putting out the fires and recovering her aircraft. Several hours after the battle, while steaming at 20 knots, a terrific internal explosion rocked the Lexington, causing serious fires to break out in many parts of the ship.

"It was first thought that the explosion was the result of a 'sleeper' bomb. Investigation revealed, however, that the probable cause was the ignition of gasoline vapors which resulted from leaks in ruptured gasoline lines in closed compartments below decks.

The crew fought heroically for more than fifteen hours to save the ship but were at great disadvantage because the explosion had damaged much of the fire fighting equipment.

Destroyers Helped

"Destroyers were sent alongside to assist with their pumps, fire hose and chemical fire fighting equipment. The wounded were transferred from the burning carrier to the destroyers alongside.

"Finally, with all machinery disabled, the ship stopped, and flames enveloping nearly her entire length, it became apparent that any further attempt to save her was futile and the captain

Small Tags For  
Missouri Cars

JEFFERSON CITY, June 12.—(AP)—A small date tag bearing the numeral "1943" probably will replace Missouri's regular full size automobile tags next year.

Attorney General Roy McKittick ruled today that federal restrictions on the size of car tags automatically suspended the state law and that Missouri must do what Washington says.

The state has federal authority to make the date tag not to exceed six and a half square inches and cannot use more than 10 per cent of the metal put in tags of the past. So this probably will be your auto tag next year.

The same plates you used this year, with a small "1943" date tag placed over the "1942" numeral on the present license. The price will be the same.

Saturday Is  
MacArthur Day

WASHINGTON, June 12.—(AP)—President Roosevelt told a press conference today he had signed legislation making tomorrow MacArthur Day in honor of the United Nations commander in the Southwestern Pacific theater of war.

He said the measure met with his full approval.

Asked his views on the general principle of honoring a living hero, Mr. Roosevelt replied that he thought it was a good thing occasionally. He added that he was receiving tomorrow 15 living heroes and he thought that was much better than seeing dead ones.

## The Washington Merry-Go-Round

By DREW PEARSON AND  
ROBERT S. ALLEN

WASHINGTON, June 12.—In Army-Navy circles, the Battle of Midway Island, was considered important not only as a turning point in the war, but as a new milestone in the demand for a separate, independent U. S. air force not chained down by the battleship prejudices of the admirals.

There are two chief reasons for this renewed demand for a separate air corps at this time:

1. The Battle of Midway, and in fact all major U. S. victories so far, have been won primarily by the Army Air Corps. The Navy has been in command, issued the communiques, and received most of the credit. But at Midway and the Coral Sea land based army airplanes turned the tide of victory.

2. Army airmen claim that despite the vital importance of bombing planes, the battleship still gets priority in materials over bombers.

Actually, construction of both bombers and battleships get top priority ratings. But when it comes to some of the materials going into bombers, it is another story. Army airmen say that certain materials for bombers get only a No. 4 rating, whereas all materials for battleships are rushed through at top speed. Yet most of the battleships now building will not be finished for two or three years; while bombers can be finished in a few weeks, and they can be dropping bombs on Germany a few days later.

This question, many military strategists feel, is one of the most fundamental faced by the U. S. forces, and represents the difference between winning the war in 1942 with bombers or winning it in 1944 with battleships.

And the air corps, they are convinced, cannot function if it is chained down to battleships.

### Air Corps Met Japs

To get a clear picture of the situation it is necessary to study the strategy of the Battle of Midway Island. Admiral King, long one of the most air minded admirals in the Navy, gave the tip-off to what happened when he said that it was not wise for the U. S. navy to follow the Jap fleet to mop up.

"They still have a lot of shore based air power," he explained. "As they found we had in the Coral Sea and at Midway."

This was another way of saying that U. S. battleships could not go too close to Japan's Marshall Islands with the rilan dair bases, because warships cannot stand up under concentrated airplane attack.

It was also another way of saying that before the Jap fleet even got to Midway Island it was met by a reception committee largely of U. S. air corps bombers which made it too uncomfortable to advance further. "Shore based air power" is not the navy but the army, plus, in this case, a small contingent of marine corps bombers.

Thus, reading between the lines of Admiral King's statement, it is safe speculation to piece together this picture of what happened at Midway Island.

The Japanese were advancing with what Admiral King described as "the bulk" of their fleet. This was estimated at eight modern battleships and six airplane carriers, which left them only about six other battleships and one other carrier to guard their far flung battle lines to Singapore and India. In other words, the Japs were putting most of their eggs in one basket and making a desperate stab at eventual invasion of the U. S. A.

### Planes Rushed To Midway

Calculating our opposition to this huge armada, the Japs must have estimated that considering our losses at Pearl Harbor and our necessity of protecting the Atlantic we could not match their

battleship strength in the Pacific. They had photographs of the damage done at Pearl Harbor, and they knew we had used no battleships in the battles of the South Pacific. So probably they were able to make a fairly accurate estimate of what we could muster around Midway. And the tremendous size of their own force shows they did not want to take chances.

However, the Japs were not able to calculate that we would get wind of their movement in advance, and that the army would concentrate so many of its big bombers on Midway Island — hungry for the Jap attack.

## Today's Pattern

8197

### Softly Styled

It is the pretty frocks which get noticed now-a-days! Here's one which will win you many an admiring glance. Especially when you make it up in a gay flowered fresh dotted swiss. Ruffling edges the low cut neckline and the feminine puffed sleeves, and narrow velvet ribbon is banded around the top of the hem and the sleeves.

Pattern No. 8197 is designed for sizes 12 to 20. Size 14 takes 3 3/4 yards 39-inch material, 1 1/2 yards ruffling and 10 yards velvet ribbon.

For this attractive pattern, send 15c in coin, your name, address, Pattern Number and SIZE to Sedalia Democrat-Capital Today's Pattern Service, 211 Wacker Drive, Chicago, Illinois.

A new Fashion Book has just been published! Send today for your copy of this valuable guide to the latest patterns for summer sewing. Frocks, aprons, slacks, sports suits—for all sizes from 1 to 52.

Pattern 15c, Pattern Book 15c. One Pattern and One Pattern Book ordered together 25c. Enclose 1c postage for each pattern. Mail orders to our Chicago address as noted above. That address and none other must be used. Do not send pattern mail to Sedalia, Missouri.

And reading between the lines of the navy's statements, it is safe speculation that our air fleet, chiefly army bombers met the Jap ships 500 miles off Midway and never let them come within range of our battleships' big guns, also that the only U. S. naval vessels which really got into action were our submarines. (The Japs presumably scored their hits against us with airplanes or subs.)

In which case you can understand why the air corps is sore over having the Battle of Midway hailed as a great naval victory, with the admirals issuing all the victorious communiques.

### Admirals Rule Air

Indisputable fact, however, is that no navy today can go near a heavy concentration of land-based planes. The British super dreadnaughts Prince of Wales and Repulse were not ships to do it. The Jap battleship Haruna was not able to do it when we still had some air strength in the Philippines. And the powerful British fleet today is not able to go near Nazi air bases on the coast of Europe.

Yet today, the air corps around Midway is under Admiral Nimitz; the air corps around the Coral Sea is under Admiral Leary; and the air corps around the Caribbean approaches to the Panama canal is under Admiral Hoover — none of whom ever has been trained in aviation.

This is Mrs. Barclay Harding Warburton's idea of the way to further national unity: Addressing a meeting of the Pennsylvania State Republican Committee, the wealthy, former national committee woman shrilled, "We've got three enemies to defeat — the Japs, the Germans and the Democrats."

So heavy has been the demand for copies of an article published by the Great Falls, Minn., News giving a detailed record of Senator Burt Wheeler's isolationist opposition that the newspaper has had to reprint it three times. . . . Rep. Fred A. Hartley, New Jersey Old Guard is having a tough fight for reelection. The AFL and CIO have joined forces to beat him, and in a joint letter have called on the Essex county GOP chairman to repudiate Hartley. . . . Rep. Dan Reed, upstate New Yorker, is another Republican who is in trouble because of his isolationism. Opposition Republicans in his district are supporting Leon P. ## Rifle Practice By Company F

Thursday evening regular drill was held by Company F, Fourth Missouri Infantry. Lieutenant Ellsworth Green, acting commandant, was in charge of inspection after which the company marched to the Briardway school grounds where rifle practice was held. Calisthenics were in charge of Sergeants Arthur Burke and Philip Kain.

Returning to the armory a lecture on "Nomenclature of The Rifle" was given by J. J. McGrath, instructor.

Summer garrison caps were issued and announcement made the company would participate in Flag Day ceremonies in front of the Elks Home on Sunday afternoon, June 14.

## Serial Story

# Sporting Blood

by Harry Harrison Kroll

Copyright, 1942, NEA Service, Inc.

THE STORY: Strickland Ballard, pompous, paternal patent medicine king, has politely stolen a prize horse and a new strain of corn from young Hunter Dent, his farm manager. Hunter bets his next year's salary that before the year's end his wager-loving employer will restore his horse and corn, and apologize. He repents the bet before Ballard's daughter, Bella, late that night Hunter finds Ballard's dissipated son, Junior, lying on the floor of his room. Beside him is a hatchet containing \$17,000.

### CHAPTER II

HUNTER DENT dazedly counted the sum of money again, and replaced the large denominations in the leather bag. A goldleaf monogram, almost obliterated by use, was of the First National Bank, Middleton. The Ballard Laboratories had their account in this bank. It was possible the money was Mr. Ballard's. Hunter went and looked down at the boy. He was breathing with a gargling noise and seemed dead drunk.

"Poor brat. Well, this is the fruits of too much paternal indulgence. I'd better get him to his room and to bed."

First, however, he must safeguard the money. He put it in the new steel safe, the combination to which only Hunter knew, as the safe was recently installed and Mr. Ballard had not got around to checking on the installation. Hunter then hoisted the limp young man across his powerful shoulders and carried him into the night. The party seemed to have broken. Hunter knew his way about. He toted Junior to his room and without taking off his clothes put him on the bed and came away.

He made a round of the house. Odd about the party's breaking up. Usually these things lasted all night. The house was as deserted as a tomb. He searched for Junior's car, a powerful, costly roadster, but it was not in the garage nor parked under the trees in the drive.

"Funny," Hunter commented in his mind.

The thought that struck Hunter made his pulse bound. Junior Ballard in all likelihood was so intoxicated that he would remember nothing of his coming to the office, of Hunter's carrying him to his bed, perhaps not even how or where he had got the money!

"All I would need to do," Hunter thought, "would be to keep the money in the safe. Junior will almost certainly get into trouble over it. Just before he has to go to jail, or the hot seat, I can have my inning with his daddy. Ballard will do anything for the boy. . . . I've got him with his tail in the fence-crack, and all I need to do is let the fence drop smack-dab down on him!"

Maybe it was a little shabby. But when you have just yielded up the fruits of some years of your own life because of an underhold, and you manage in turn to grab yourself an underhold even stronger, is that a moment in which to weaken? Hunter stiffened his spine and went in, going to bed so as to catch some more sleep before he rose early in the morning.

HE did not sleep very well. He waked before sunrise, according to his habit. He went down to the barn. There he set the colored boys to feeding the horses, and getting the milking done. Sunrise was gathering on the hills and valleys and river when he was through with the morning chores. "Top of the morning!" called a cheerful contralto voice from the bottom step as Hunter came around the corner of the office.

"You know, mysteries always charm and challenge me," Bella said. "I'll wager you that if I had a clew I could solve this deep dark mystery."

"Hullo, Red," Hunter said, eyeing her with disapproval. Bella Ballard wore a bright peasant dress, a milkmaid's dress. If she had ever milked a cow he had not seen her. But for her father's registered herds she might have supposed milk grew in bottles and was plucked from trees. Her gay parody on a working-girl's costume somehow outraged the young manager. She was just a little too lovely, her lips were just a bit too kissable. She hadn't any right to be so damned attractive. It would have been different if she still followed him around as she did as a teen-kid. Now she was grown up. She would be married at Christmas to Oliver Tisdale.

TRUE, all this was poor excuse for his contrary venom. "What are you doing here? Clear out," he told her. He supposed this was jealousy. But she got on his nerves.

"What's that you've got?" "The morning paper. It comes by the dawn cream truck. Since you seem to be illiterate I'd better read you the news which has crowded the war news off the front page." She shook the paper out.

"That's interesting" Hunter grunted.

"Yes, it is. A bank messenger was shot last night and seventeen thousand—"

Hunter grabbed the paper, read furiously, hitting the high spots. The slugged bank messenger was near death. Unconscious, and the police had been unable to question him. Identity of assailants unknown. The supposition was that a payroll, or secret movement of money in currency, had cleared through the First National on short notice, but bank authorities had not been contacted at the time of going to press. The job had all the earmarks of an inside stunt.

Hunter looked up. Red was watching him, and he was sorry he had betrayed his nervousness. He laughed, trying to be casual.

"Wouldn't you say it was rather mysterious, Hunter?" "Why, yes, I suppose all such things are basically mysterious." She clasped her knees with her clasped hands, looked dreamy. "I'd like to lay you a wager, Hunter."

"No, no!" he cried. "No more betting for Hunter Dent, no, sir! You are now gazing upon The Man Who Learned Life's Lessons the Hard Way."

"I'll wager you that if I had a clew I could solve this deep dark mystery."

"That's all a sleuth needs." "Let me ask you something."

"Go ahead."

"Did Junior come to your room last night at any time?"

"Good lands!" Hunter said crossly. "Why should I always be keeping up with your brother? Your daddy had better be doing it—or you."

"I need a clew. You wagered. Lay your money on the barrel-head. Was Junior here?"

Hunter grew bold. He was annoyed, guilty, and still vaguely angry at her for looking so much like a milkmaid in a peasant dress, and so kissable. Well, what if she was going to be married? There was still something of the trusting little girl about her.

"This is your idea, remember, Red," he reminded her.

Her eyes were half closed and peculiar. "Remember."

"For a big kiss later—I take mine on the installment plan—I'll give you the clew. I'll pose with you when your picture appears in the paper. Take it or leave it."

"I'll take you." She held up her lips. Hunter kissed her.

Heralded as one of the most memorable pictures of screen history and based on the best of Rex Beach's best-seller books, "The Spoilers" comes to the Fox Theatre, Sunday and Monday. The thrill-laden story of the Klondike co-stars Marlene Dietrich, Randolph Scott and John Wayne and the film backs its three-way constellation of stars with a pretentious supporting cast including Margaret Lindsay, Harry Carey, Richard Barthelmess and William Farnum, star of the original "Spoilers." "Whispering Ghost," starring Milton Berle, Brenda Joyce and John Shelton will be seen on the second-half of the dual-program.

## Free French Withdraw

At Bir Hacheim  
Had Given Axis  
Much Trouble

By NOLAND NORGAAARD

LONDON, June 12 — (AP) — The melting pot garrison of Bir Hacheim, target of at least 13 land assaults and uncounted bombings in the battle of Libya, was withdrawn from that former southern anchor of the British line during Thursday night.

The announcement of the withdrawal came tonight from the middle east command at Cairo as a sequel to the German high command's statement that Bir Hacheim fell this morning to Axis forces that stormed the fortified oasis from their encircling lines.

"On the orders of General (Neil M.) Ritchie, the garrison of Bir Hacheim was withdrawn on the night of June 10-11," said the Cairo communique.

"The Free French troops of the Garrison under General (Pierre) Koenig had for 16 days fought off large scale attacks by infantry, tanks and aircraft and inflicted heavy losses on the Axis forces.

"They played a vital part in upsetting the enemy's plans. Their magnificent fighting qualities have earned the admiration of the United Nations."

"Dearly Sold To Axis"

The fortified oasis had been dearly sold to the Axis by the hardy fighters under the Alsatian General Koenig. Most of its defenders were Free Frenchmen. There also were leathery French Legionnaires from Syria, and fighters of other nationalities, even Germans opposed to Hitlerism, and a contingent of British Indians.

At the outset the direct assaults were entrusted almost exclusively to Rommel's Italian forces. Each wave was rolled back in turn and at one juncture the garrison messaged the taunt: "Send us more Italians." Later the Germans and their tanks, artillery and Stukas joined in laying a fiery siege.

Yesterday British armored and motorized forces, striking down from the north and assisted by the RAF, tried to break the Axis stranglehold and these strokes may have opened the way for withdrawal through the Axis encirclement.

Today's German communique said that "the fort of Bir Hacheim, southern pillar of the British defensive system, was this morning taken by storm after several days of bitter resistance by strong enemy units which had been encircled there."

Military circles in London said the immediate effect of the loss of Bir Hacheim was to assure shorter and safer Axis supply lines. Of itself, the loss was not, however, deemed a vital setback for the British and their allies.

## Vengeance In Executions

Czechs In Exile  
Vow Revenge On  
Nazi Atrocities

By J. WES GALLAGHER

LONDON, June 12 — (AP) — The Czechoslovak government in exile vowed revenge Thursday for the mounting wave of Nazi executions which have reached perhaps 690 since the assassination of Reinhard Heydrich, the Gestapo's purge master and "protector" of the Czech homeland.

The Nazi executioners continued their reprisals at an increased tempo. The Prague radio announced tonight that another 34 Czechs had been executed today, including ten women. This brought the official total to 340, not counting those put to death in the wiping out of the little town of Lidice.

At least another 350 persons were shot to death in that brutal reprisal, according to the estimate of an official Czech spokesman in London.

Retribution Steps

These "barbarous acts" were protested in a formal note to the allied governments which said: "The Czechoslovak government will take the necessary steps which it may regard as desirable to secure retribution for these atrocities and will relax no efforts to bring to account all those who committed these crimes or who were in any way responsible for them."

(Fears of just such reprisals were expressed, meanwhile, by the secret German radio station, known as the "station of the European Revolution," in a broadcast recorded in New York by the CBS listening station.

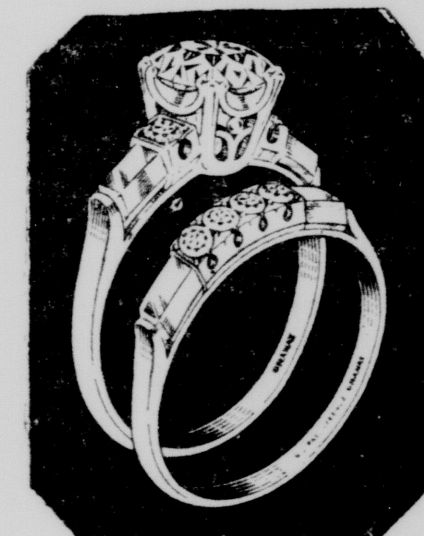

"Comrades," the announcer said, "an open word is imperative in the face of the mass murders of Lidice. If we don't do away with the gangster band of Nazis very soon, if we wait until Hitler is defeated on the field of battle, then the flood of revenge will break down on us. No affirmation that we had nothing to do with the Nazis will help us then.")

The Czechoslovak protest followed shortly after one broadcast by General Wladyslaw Sikorski, president of Poland, against "mass shootings" of Poles, "torture of tens of thousands" in concentration camps and "deportation of more than 1,500,000 people."

"Only by the announcement of retribution," he said, "and the application of reprisals whenever possible can a stop be put to the rising tide of madness of these German assassins."

Mr. and Mrs. R. F. Trueman, 1416 South Prospect avenue, announce the marriage of their daughter, Lavera Fay, to Mr. Edward Guthrie, son of Mr. and Mrs. E. W. Guthrie of St. Louis, which took place there June 1.

The ceremony was performed by the Rev. H. J. Rains, a close friend of the family, at his home at 8 o'clock in the evening. The bride is a graduate of the 1937 class of Smith-Cotton high school.

Mr. and Mrs. Guthrie are visiting relatives and friends in and near Sedalia and after June 15 will be at home at 5610 Enright in St. Louis.

Miss Sarah Ellen Martin, daughter of Mr. and Mrs. L. A. Martin, 1621 East Sixth street, and Mr. William Gene Hayter, son of Mr. and Mrs. Will Hayter of Clinton, were married at 4 o'clock Saturday afternoon, June 6, at the bride's home, with the Rev. Walter P. Arnold, pastor of the East Sedalia Baptist church, officiating at the single ring ceremony.

The bride wore a navy blue street dress with white accessories and a corsage of gardenias. She was attended by her sister, Mrs. M. R. Pace, who wore a light blue suit with accessories to match and a corsage of pink rosebuds.

Mr. Pace was best man, and witnessing the ceremony were the bride's parents, and her brother, L. A. Martin, Jr.

Mr. and Mrs. Hayter are now at home at 1603 East Seventh street. Mr. Hayter is employed at the Missouri Pacific shops.

## Merchant Ship Rams A 'Sub'

HAVANA, June 12 — (AP) — A United States merchant ship rammed, shelled and apparently sunk a submarine which had machine-gunned her as she was nearing a Cuban port about ten days ago, press dispatches from a Cuban coastal city said Thursday.

The submarine surfaced a few miles offshore. Two men came up on deck and immediately began machine-gunning the U. S. ship.

Artillerymen aboard the Amer-

ican ship replied, with two of their shots striking the conning tower.

The captain then put his ship across the submarine and the success of his maneuver was apparent when a great oil slick welled up to the surface.

Reports from the coastal city said only one of the American crew was injured by the sub's machine-gun fire.

A U. S. vice-consul and others in the vicinity raised a fund of \$1,000 for the American crew.

oners, whom we were treating with all human kindness, but the Japs didn't see fit to leave us alone. Nine planes came over our little hospital, which was plainly marked and which he had struggled hard to make as comfortable as possible for our boys.

### Hit Doctor's Quarters First

"The first bombs fell on the doctor's quarters, at the entrance of the nurses' quarters and near the operating room. Several of our corps men were killed and a good many civilian workers and Filipino laborers. I was on duty in the ward."

Despite a Japanese apology radioed from Manila, Lieut. Redmond declared a second bombing occurred a week later.

"It was terrible," she said. "Our hospital was demolished completely. Patients were blown up into the trees and their bodies were hanging there when I went out."

### Missouri Girl In Group

Second Lieut. Dorothea Mae Daley of Hamilton, Mo., told of the nurses' escape from Bataan on the night of April 8, a few hours before the capitulation, when some of them boarded a small steamer for Corregidor, later to be taken by plane from that defeated fortress to Australia.

The others in the group arriving at San Francisco were Florence MacDonald of Brockton, Mass.; Harriett G. Lee, Boston; Sue Downing Gallagher of Pittsburgh, Pa.; Mary Lohr, Johnstown, Pa.; and another whose name was withheld because she feared her sister, a prisoner of the Japanese, might suffer should she reveal any incidents.

## Eight Army Fliers Killed In Crash

SARASOTA, Fla., June 12.—(AP)—Eight army fliers were killed and two injured early today when a four-engine bomber crashed into Sarasota Bay.

Major Gardiner Fiske, Sarasota air base intelligence officer, said the heavy ship had cleared the runway on a pre-dawn training flight and gone about a mile when it went out of control. It landed on its back in a foot and a half of water about 200 feet from shore and two of the crew were pulled from the wreckage with only minor injuries.

Major Fiske said identities had not been fully established and the crew list was withheld temporarily.

thing and do it quickly."

Talk of a Russo-Japanese war was rife also at Pearl Harbor, where informed quarters suggested that the Japanese thrusts at Midway and Alaska were the prelude to an attack on Russia.

### Close Unity

With the Allies united as never before—first by a new 20-year mutual assistance pact between Britain and Russia, second by a new Washington-Moscow accord wiping the dollar sign off United States aid to Russia—the question of opening a second front in Europe this year brought various reactions.

In Washington, few congress members believed that the White House announcement of agreement on the "urgent task" of creating a new front portended any immediate attempt to land allied troops in Europe.

London, Washington and Moscow were all agreed on the "urgency" of the matter, but officials shied at a direct interpretation of the rather ambiguously worded statement.

### British Enthusiasm

Sections of the British press which long have been clamoring for direct action against Germany hailed the accord with high enthusiasm, typified by the London Daily Express' comment:

"This is Hitler's worst day."

At all events, London military observers declared Hitler's anxiety was betrayed by two factors:

1. Frenzied German efforts to secure the channel coast against invasion.

2. Indications that Hitler was massing his armies for an all-out attempt to smash Russia before the Allies can establish a second front.

### Pacific Developments

Other developments in the far Pacific theater:

China war front—Japanese dispatches said Japanese troops had driven from Western Chekiang Province into Kiangsi Province on a 30-mile front after capturing two western Chekiang cities, Changshan and Kiangshan.

Chinese dispatches said American "flying tiger" airmen had scored another spectacular victory over Japanese fliers, shooting down seven and possibly eight Japanese planes in a battle over Kwelin, capital of Kwangsi Province.

Australia—Gen. Douglas MacArthur's headquarters announced that Allied fliers bagged a four-motored Japanese flying boat and a fighter, and set big fires in an attack on the airdrome at Japanese-occupied Rabaul, New Britain.

## No Rationing Chops-Ribs

(Continued From Page One)

Reporter, "it would seem there will be such a supply of hogs this fall and winter that the capacity of packing plants will be taxed to the limit."

Favored by climatic conditions of this area in the heart of the two-litters-a-year territory, and encouraged by favorable corn-hog price ratio, the farmers of Missouri, Illinois and several other states grew one of the largest fall pig crops in 1941 they had produced in years. These are the pigs that are coming to market now.

Top prices are averaging well above \$14 per hundredweight. The highest paid here during the current rush was \$14.50 on April 16.

## Explosion In Basement

TRENTON, Mo., June 12.—(AP)—Eight persons were injured, five seriously, today in a mysterious explosion in the basement of a downtown office building.

The blast, in the Helmsdollar building, wrecked a service station and damaged an office on the ground floor.

These seriously injured were rushed to hospitals: Jack Briegel, service station attendant; Edna Mae Muse, cashier; Harold Pease, a plumber; Roy Shockey, sales manager for a bottling company and Gail Cunningham, service station employee.

Horatio Grant, operator of an auto repair shop, William Kidd, railroad fireman, and Wayne Cunningham, employee of the service station, were dismissed after first aid treatment.

Cause of the blast was not immediately established.

## Another Call For Women Volunteers

(By Red Cross Reporter)

Once again the American Red Cross is calling for volunteers for the Motor Corps. The need is urgent. If you have a car, and want to help your country in its war survival, come to the Red Cross office and sign up. The more cars, the less wear and tear on your car. This is a national emergency.

The present Corps is responding generously to the various calls made upon it by the local Red Cross. Its members are carrying on. Will you join them.

## Remembering Pearl Harbor They Attacked

(Continued from Page One)

task force had been hunting the enemy in the Coral sea.

"Long before dawn, we were ready and anxious for the takeoff. 'We got over Tulagi in early morning, every plane in position and carrying a full load of torpedoes and bombs. We didn't know what to expect but there below we could see through rifts of clouds the harbor filled with troops and transports."

Taylor told of the launching of the actual attack.

### Just Went To Work

"As soon as I saw what ships were in the harbor, I instructed the pilots which ones to hit. In a melee there is no time for detailed assignments. We just went to work with torpedoes and the bombs.

"We did not catch the Japanese exactly flat-footed, but they got up no anti-aircraft fire until the attack was started. By that time, it was too late. Let Bill tell you what it looked like when our boys finished."

"When we completed the attack," Burch said, "the harbor was filled with sunken and burning ships a few of which managed to crawl to the beach to keep from sinking.

"Nine were definitely sunk, possibly eleven. This included two heavy cruisers. In addition we sank numerous small boats and lighters by strafing. We believe we also sank a seaplane tender and a third transport. The whole harbor was strewn with smoking wreckage.

### Lost Nothing

"And I am happy to say we lost absolutely nothing. A couple of our boys brought back a few holes in their planes, but none of the personnel was even scratched."

Asked about the main action at Coral Sea, Burch said:

"All that I can tell is that we gave them a larger dose of the same stuff we handed them at Tulagi."

## Salvage Scrap Rubber

under the direction of the bureau of industrial conservation of the War Production Board, but it will be the Rubber Recovery corporation under the RFC which eventually will buy up for the government all the scrap rubber turned in. Mr. Roosevelt emphasized that it would not be a money making proposition.

In this connection, a statement from the petroleum industry war council said today that "any or all profit" which might accrue to the oil companies in the transaction would go to the United States organizations, the army relief, navy relief and Red Cross.

### Various Articles Wanted

Not only does the government want articles made wholly of rubber, but also those which are only partly rubber. Mr. Roosevelt said he mentioned tires and tubes as the most common source of old rubber, but said the government also desired such things as rubber mats, rubber-soled shoes, old water bottles, jar rings, raincoats, and ash trays.

## Treasure Hunt For Apprentices

On Wednesday evening the Missouri Pacific Apprentice Club held a treasure hunt, ending in a winner. Starting from Smith-Cotton high school, directed by 12 clues the group was sent over a 25 mile route. The treasure was won by Betty Logan, driver of the car with Cliff Mae Smith, Kathryn Dick and Herman Logan. The "booby" prize was won by Clarence Edwards, driver, with Florine Wareham and Mr. and Mrs. Ralph Hamilton.

The following members of the club with their wives and dates participated in the hunt:

Mr. and Mrs. C. L. Davidson, Mr. and Mrs. V. Martin, Mr. and Mrs. R. Morris; Mr. and Mrs. M. Schilb, Mr. and Mrs. B. Cross, Mr. and Mrs. R. Hamilton, Mr. and Mrs. R. Rains, Mr. and Mrs. H. Burford, Florine Wareham, Marie Weller, Alma Lewis, Lola Woods, Patricia Poundstone, Kathryn Labahn, Dorothy Schlomer, Mildred Heinsoth, Bettie Busker, Jane Ward, Elaine Schaefer, Betty Mae Smith and Kathryn Dick. ordered the crew to 'Abandon Ship.'

The Lexington's normal complement was 2,300 men. The navy said 92 per cent of the personnel on board was rescued, but officials commented that "obviously, planes were lost" without estimating the number.

As against these losses which the navy said had been instrumental in disrupting Japan's strategy against Australia, the navy announced the Japanese had suffered:

### Japanese Losses

Sunk: 1 aircraft carrier, three heavy cruisers, one light cruiser, 2 destroyers, several transports and small supply vessels.

Severely damaged and probably sunk: One cruiser and one destroyer.

The enemy also suffered a loss of more than 100 aircraft, the navy declared.

### Attacked From Australia

The heaviest losses of the enemy were inflicted in an attack on Salamaua and Lae, New Guinea, March 10 when aircraft from a Pacific fleet task force commanded by Vice Admiral Wilson Brown joined shore based planes from Australia to attack the enemy bases.

This attack, previously reported as having been made, although the fact that carrier-based planes participated had not been given out, resulted in the sinking or damaging of more than 20 Japanese ships plus heavy damage to shore installations.

The second phase of the campaign was the battle of the Coral Sea which started May 4 after reconnaissance had shown concentrations of enemy shipping and advance into the Solomon and Louisiade Islands.

### Attacked Near Tulagi

The task force which first participated in this fight was commanded by Rear Admiral Frank J. Fletcher which attacked a part of the enemy armada anchored in and near the harbor of Tulagi, in the Solomon group, and all but annihilated it. The results of this engagement, previously announced by the navy, were the sinking or damaging of 12 Japanese vessels and destruction of 6 aircraft with a loss of but 3 American craft.

## Sawmills Have Become Popular

BROOKFIELD, Mo., June 12.—(AP)—A shortage of lumber resulting from demands of the war effort has resurrected an industry in rural North Missouri which rapidly was becoming extinct.

Scarcely a cluster of timber of any size remains that doesn't have at least one sawmill operating on a war-time schedule.

Demand now exceeds the supply for rough cut lumber, operators declare. Farmers so far are the best customers, paying from \$3 to \$5 a hundred feet for native wood for hay racks, cribs, outbuildings, and frame work of dwellings.

Favorite woods are white oak and water oak for joints and rafters in building, maple for siding and elm for sheathing.

Suitable wood is being made into railroad ties, for which a ready market exists at good prices. Oldtimers are using steam engines, burning wood slabs for fuel, but gasoline-powered engines are in the majority. Many of them are converted automobile motors.

## Miners Give Up Their Vacations

MUSKOGEE, Okla., June 12.—

(AP)—To aid the war production program, 6,000 to 7,000 miners in the coal fields of Oklahoma and Arkansas will sacrifice their annual two-week vacations.

An agreement under which the miners will give up their vacations in return for \$20 "token payments" and an extra day off over the July 4 week-end was reached yesterday at a meeting of CIO officials and mine operators.

"In consideration of the war needs of our country as affecting coal production, its transportation and the building of coal reserves," the agreement stated, "it is agreed that the vacation shall be curtailed and the miners will stay on the job except for one working day during the year."

The miners will be off July 3, 4 and 5 but since the last two days—Saturday and Sunday—are normal holidays under the contract covering the district July 3 will be the only working day lost.

Miners who have entered military service will receive the "token payments."

The agreement was signed by David Fowler, district president of the United Mine Workers of America, and other union officials and by representatives of the Oklahoma-Arkansas Coal Operators association and a group of independent operators.

**Resurrection Story Assures Humanity That Truth And Goodness Will Conquer**

Text: Luke 24:33-48

By William E. Gilroy, D. D.  
Editor of Advance

A great hymn of the church begins "The Day of Resurrection. Earth tell it out abroad." But no telling of it abroad can suggest all the wonderment and glory of that first Resurrection for the disciples.

They had followed the Christ with everything that they possessed on earth and all their vision and hope of heaven staked on their commitment to Him. Undoubtedly they had looked for some earthly consummation of His Kingdom and some triumphant outcome in which they could share. Their hopes must have been high as they had witnessed and shared, His triumphant entry into Jerusalem amid the spreading of palm branches and the acclaim of the people. "Hosanna." And then had come the cruel and disillusioning experience as they saw their Master overcome by earthly powers, led for trial and crucifixion. It was an hour of dark despair, but one in which the cruelist disappointment could not entirely obliterate their faith, or their sense of the glory and beauty of all that He had said and done. The sadness of a lost but glorious dream was in their memory of hope turned to tragedy. "We trusted that it had been He who should have redeemed Israel."

And then, suddenly out of their black night, came the glory of the Resurrection morning—the rumor, as yet a wishful longing, that the Master was alive and that some of them had seen Him and then the actual assurance of His presence and the evidence that convinced even doubting

Thomas. No words can convey the reality of the revived faith and hope in which the disciples went forth to establish the Christian church and fulfill the Master's commission to preach the Gospel to every creature.

The conviction that Jesus lives that we are following a living and not a dead Christ, is at the heart of Christian faith, as it is the foundation of all Christian activity. We are living today in an age of darkness, when hopes have been blasted, when saints have been persecuted and murdered, and when the church seems blotted out in large areas where once men worshipped in peace. We are passing through a world's Calvary—but the Resurrection story assures us that the Christ is not dead. As truly as He returned and revealed Himself to the disciples on that first Resurrection morning, His power will again be revealed and truth and goodness crushed to earth will rise again. It is a time to remember the words, fully vindicated, that the disciples in the dark hour forgot. "Be of good cheer. I have overcome the world."

Much concerning the Resurrection is shrouded in mystery—a mystery that may be made plain when we have all advanced as far in the study and knowledge of spiritual phenomena as we have advanced in the knowledge and use of material facts and forces; but the evidence of the Resurrection is not only in the Gospel records, but in the Gospel history. It was the Risen Christ that revived faith in a time of dark despair, and that not only restored the disciples to their mission, but that changed the face of history.

## Houstonia

By Mrs. Bennie Martin

A large attendance was present at the canning demonstration held June 9, at the Houstonia public school building. The demonstrations were given by Miss Dorothy Bacon, county home demonstration agent, and assistant, who showed methods of making cheese.

Mr. and Mrs. James Blackburn and children, and Mrs. Bettie Crews drove to Fort Madison, Ia., Saturday and visited until Sunday with their daughter and sister, Mrs. William Kiel and family. At the Kiel home they met their son and brother, Mr. and Mrs. Everett Crews of Mischiwaka, Ind., who also spent the week end there. Mrs. Crews remained for a week's visit.

Mrs. Donald West and daughter have returned to their home in Wichita, Kas., following a visit with Mr. and Mrs. L. P. Welborn.

Mrs. Mary Wimer, of La Monte, spent several days with her daughter, Mrs. Jay B. Dorsey, last week.

Mr. and Mrs. W. S. Nutt, of Sedalia, spent Monday evening with relatives here.

Mr. and Mrs. Frank McCarty, Jr., and son were Sunday guests of his parents, Mr. and Mrs. Frank McCarty. Sr. Patsy McCarty, who had spent the past ten days with her grandparents returned to her home with them.

Mrs. Lillian Barlish of Denver, Colo., who is visiting her parents, Mr. and Mrs. Lon Stone, spent Saturday night in Sedalia. Relatives assembled Sunday at the home of Mr. and Mrs. George

## The Cause of Liberty

The cause of human liberty is not served by armies alone. Behind it there is marshalled the spiritual resources of churches and synagogues, strengthening the spirit of men who go forth to meet the challenge of oppression.

The presence of religion is recognized and welcomed in homes, in training camps and on battle fronts everywhere. It is with the worker in defense plants. It is with women and children keeping the faith and finding ways in which they, too, may serve.

Religion is food and strength; it is the word of cheer, the will to smile and "carry on." It is the promise of victorious triumph over obstacles and suffering.

Some call it morale, stressing effect rather than cause. But, basically, it is the conversion into deeds of courage and endurance of the faith that is America's. Religion helped to build America into a land of freedom. It is now helping to protect and defend that freedom.

## Vacation Bible School Closes

The East Sedalia Baptist church brought its two weeks Vacation Bible school to a very successful close last week. This was their twenty-second annual school. The general officers this year were: Mrs. Clyde Waters, principal; Mrs. E. E. Lingle, general secretary and purchasing agent; Miss Eugenia Frances Arnold, director of music and Doris Mae Stott, pianist. The department superintendents were: Mrs. Ellis Norris, beginners; Mrs. William Morgan, primaries; Walter P. Arnold, juniors and Mrs. Paul Lingle, intermediate. These were assisted by many fine adult helpers.

The annual picnic for the school was held at Liberty Park on Wednesday afternoon of the second week. One hundred seventy went to the park in cars furnished by the parents and a large truck by Ollie Elliott.

The commencement program was presented in the auditorium of the church on Friday night. The hand work was on display in the basement. After a program of songs, drills and memory work, the program was brought to a climax by showing of a reel of motion pictures in color taken of the school during the first week. This was a real thrill to the children and a surprise for the parents. The total enrollment this year was 186.

## Write Letters To Volunteers

Miss Frances Goodman was the hostess to the Tri-Community Extension club Wednesday night, June 3, at her home on route 4. A short business meeting was held and a letter was written to each of the volunteers who have gone to camp from the club. They are Gene McMullin, Herbert Reynolds and Laurence McMullin.

Games were played after the business session and refreshments served.

Attending were Laura Val Mahin, Agnes Goodwin, Dora Dale Siron, Marie Wilkens, Florence Koepf, Bernice Palmer, Nancy Lee Garst, Ruth Ann Siron, Byron Oswald, Herman McMullin, Walter Kropf, Bob McCurdy, Elmer Hemuth, Byron McMullin, Charles Siron, Maurice Silsby, Kenneth Karl Siron, Mrs. A. ## What You Buy With WAR BONDS

The U. S. Marine Corps and the Army too, for that matter, effectively use the 50-caliber Anti-aircraft machine gun either mounted on a mobile base. These rapid-firing guns literally eat up the ammunition and a thousand rounds of ammunition costs about \$240.00.

These guns are used to take low-flying airplanes. Since they fire about 600 shells per minute, that \$240 worth of ammunition lasts a little longer than two minutes. So we need thousands of dollars in War Bonds sales to furnish our Boys with ammunition for the tools of war.

Your War Bond purchases every day will buy it. Buy War Bonds and Stamps to the tune of 10 percent of your income from Banks, Post-offices and at some department stores.

## Sedalia Would Like A Short Drought

The Sedalia Merchants have acquired the habit of looking skyward on every evening they have a game scheduled, and thus far they haven't been disappointed.

Rain caused postponement of a game with Higginsville to have been played under the Liberty park lights Thursday night.

The Merchants-Lebanon game and the Sedalia-Brookfield game were called off earlier this week for the same reason.

The Lebanon and Higginsville games both will be re-scheduled for the home diamond next week, team officials said.

The Chicago Cubs had Bill Lee and Claude Passeau, their veteran pitchers, on the block last winter and it is scarcely more than luck that this pair still wears those odd suits the Bruins use for baseball uniforms.

Yet today Passeau and Lee between them have accounted for 17 of the Cubs' 25 victories in the National League and one wonders where the sixth place Chicago club would be if either or both of these big righthanders had been traded.

**Lee's Eighth—Passeau's Ninth**  
Lee won his eighth game Wednesday and Passeau followed with his ninth yesterday in the shape of a five-hit 7-1 triumph over the Philadelphia Phils.

The only tally the tilenders made resulted from a fumble by Bill Nicholson in the second inning after Nick Etten had singled. It was Passeau's 11th straight complete game and his seventh straight win, although the sequence was interrupted by a siege of appendicitis which kept him in a hospital all last week.

The Cubs made 11 hits, three of them by Lou Novikoff.

encounter scheduled was between the Brooklyn Dodgers and St. Louis Cardinals and for the third day in a row weather kept these feudists idle.

**Rosar Springs Muscle**  
Half the American League program also had to be postponed, although the Detroit Tigers and New York Yankees made a start. The game lasted long enough for Catcher Buddy Rosar of the Yankees to sprain a muscle in his left leg and have to be helped off the field. Bill Dickey had been hurt the day before and this left the Yanks with only one able-bodied catcher, Ed Kearse, a rookie from Kansas City, who never had caught an inning in the major leagues.

He went behind the bat for the Tigers' half of the third inning and then the game was halted with Detroit leading 2-1.

The Boston Red Sox completed a sweep of their three-game series with the St. Louis Browns by winning 8-7 on a ninth-inning run which Jim Tabor singled home. Each team used three pitchers and St. Louis made 13 hits, two more than Boston and including homers by George McQuinn, Frank Hayes and Tony Criscola.

Cleveland also completed a sweep of its series at Washington by rallying for four runs in the ninth inning to beat the Senators 8-6.

NEW YORK, June 12.—Squire Gene Sarazen, who probably is the No. 1 exhibition golfer, announces that the time has come to cut down on war relief exhibitions because "they're beginning to defeat their own purposes."

Gene's idea is to concentrate on the big events like the Hale America and the Ryder cup matches that will bring out a lot of bucks, and instead of a lot of exhibitions have each golfer buy one \$25 war bond, besides those he's buying anyway, and toss it into a golf pool. . . . Ford Frick, the National League proxy, figures that take of almost \$14,000 for the Cards' relief game was just as good a showing as Brooklyn's \$60,000—considering the way the two clubs usually draw and that the Browns played one only nine days before the Cards.

It seems the Red Sox had a pretty good idea what was coming before Jimmy Foxx was sold to the Cubs. . . . ## Bass Season Opens Here Next Monday

### Types Of Catfish Are Explained By Agent Lloyd Amos

Several inquiries have been made by Pettis county fishermen concerning the open season on catfish at present, and some arguments have resulted from the subject.

Lloyd Amos, wildlife conservation agent for this area, stated yesterday that only catfish which do not have a forked tail can be caught legally. There are two species of this type, the mud or bullhead cat, the Goujon cat, also known as the flathead or yellow cat.

Many sportsmen here have thought that the speckled or spotted catfish, also called the blue fulton was the only type of channel cat. However there are three species of channel, all of which have deeply forked tails. The spotted, the blue or white fulton and the willow or eel cat.

Occasionally the spots on the spotted channel cat do not show in certain types of water, confusing the fisherman. But the channel fish, which are out of season now, can be distinguished definitely by their forked tail. Amos said.

The season on bass and the channel cat only is closed at present. On Monday, June 15, the bass season will open, and after July 15 the season on channel cat will open. Types of bass which can be caught in Missouri are the black and rock bass.

## Don Smith Is After State Title Today

ST. LOUIS, June 12.—(P)—With some heads-up golf behind him, 30-year-old Don Smith, St. Joseph packing plant employee, goes into the last 36 holes of play today in quest of his first state title in the Missouri amateur golf tournament.

So-medalist this year with a three-under-par 69, he'll meet Jim Benson of St. Louis for the championship vacated by Pvt. Jim Black of Jefferson Barracks. Black was a first round victim Wednesday.

Benson moved smoothly into the finals yesterday by winning a dramatic 19-hole weather-besieged match from Frank Bredall of St. Louis.

Herman Crookshank of Jefferson City, only out-of-town entry remaining, and Ed Kinsella of St. Louis meet in the consolation finals.

The association late yesterday elected an all-St. Louis slate of officers, including Bob Cochran, president; Syl Schmidt, vice-president, and Elliott Whitbread, secretary-treasurer. Next year's tournament if held probably will be again in St. Louis.

Dr. Humphrey Lee, president of the university said "there naturally will be complications in selecting a successor to Bell since the job will be of a temporary nature."

Bell was the fourth S. M. U. coach to take the navy oath. Others were Forrest Bacus, basketball; Charles Trigg, football

## House Passes Appropriation For The WPA

### Futile Attempt To Abolish Relief Agency Made

WASHINGTON, June 12. — (AP)— A \$336,000,000 appropriation for the WPA was passed by the House early Thursday night as administration forces withstood a determined, two-day attempt to abolish the relief agency or reduce its funds.

As finally passed and sent to the Senate by a roll call vote of 277 to 52, the bill provided for only a fraction of the funds expended in WPA's peak year of 1939, when WPA carried three million persons on its rolls and spent \$2,230,000,000.

Earlier, the House had voted: 184 to 133 against an amendment designed to prevent the WPA from starting any new projects except those certified by the Secretary of War, Secretary of Navy, or Maritime Commission Chairman as essential to the war effort.

183 to 140 against sending the supply bill back to the appropriations committee with orders to cut the funds by one third and to turn administration of relief over to the states.

**Fights on Amendments**  
The hottest fights came on the amendment by Rep. May (D-Ky), chairman of the House Military committee, to restrict WPA to war projects, and on that of Rep. Taber (R-NY) to return the bill to committee for revision.

Bitterly, Rep. Cannon (D-Mo), chairman of the Appropriations committee, protested that the May amendment was "so sweeping, so far-reaching, so devastating," that it would "gut and destroy" the whole bill.

May countered that he was only attempting to "improve" the bill, and argued that the amendment would "do away with the WPA in an orderly manner."

Taber contended that his plan of turning relief administration over to the states would cut administration costs and increase efficiency—a claim which Cannon denied.

Rep. Smith (R-Ohio), backing Taber's motion, maintained that the WPA "has been operated more from the standpoint of politics than from the standpoint of relief."

**Needs Been Pared**  
The administration forces rested their case chiefly on the contention that President Roosevelt, in submitting the estimates of WPA's needs, had pared them "to the bone."

On the other hand, those advocating even greater reductions or the agency's complete abolition said that unemployment had been greatly decreased as a result of the war stimulus to industry.

As finally passed, the measure carried \$280,000,000 in direct appropriations, plus reappropriations of \$56,000,000 left unexpended from last year's allocations. The Appropriations committee has estimated that it would provide for an average of 400,000 persons a month on WPA, starting July 1.

On a teller's count of 123 to 119, the House turned down a motion by Rep. Taber (R-Ky), ranking minority member of the Appropriations committee, to slash the allocation to \$112,000,000 on the grounds that war stimulus to industry had diminished its need.

By the more emphatic vote of 109 to 60, the chamber defeated a motion by Rep. Pearson (D-Tenn) which would have had the effect of abolishing the agency.

It also rejected, 106 to 87, an attempt by Rep. Hare (D-SC) to prevent the WPA from carrying on educational, cultural, recreational and industrial training pro-

jects for the fiscal year beginning July 1.

By standing vote of 91 to 66, the House then turned thumbs down on a motion by Rep. Wigglesworth (R-Mass) to hold the agency's funds down to \$100,000,000 for the balance of 1942, rather than give it \$280,000,000 for the next 12 months.

The votes followed a hot controversy on the floor, during which economy advocates argued that the agency had proved inefficient and unnecessary, while WPA supporters argued that it had an important place in the war program.

## Japs Refuse Safe Conduct

WASHINGTON, June 12 — (AP)— The Japanese have refused to promise safe conduct for the liner Gripsholm until June 16, the State Department said Thursday, and therefore its trip to Africa with several hundred Japanese from this country has been postponed.

Also contributing to the postponement is the fact that the United States government has failed to receive from the Japanese government the list of American Nationals to be exchanged out of Japanese-occupied China.

The Gripsholm, a Swedish vessel, had been expected to sail today for Portuguese East Africa.

The Japanese diplomatic and consular officials and other Japanese Nationals already are aboard the ship in expectation of the arrival of the missing American list later.

The Lovelace Homemakers club of the Beaman community met at the home of Mrs. Ben Potter for its June meeting, with several members and visitors present.

Lunch, to which all contributed, was served at noon.

The afternoon was spent in conversation, the main topic of discussion being methods of canning, each telling that method most successful for them.

The visitors were Mrs. Roy Potter, Mrs. Logan Siegel, Mrs. Mollie Potter and Mrs. Daisy Higson. The next meeting will be with Mrs. James Cranfield.

# Aid Pact By U. S. With Russians

Was Announced Earlier Britain Had Treaty For Assistance

WASHINGTON, June 11 — (AP) — The United States and Soviet Russia signed tonight a mutual aid agreement providing for reciprocal assistance in the winning of the war and for cooperation in practical measures to "create a better world hereafter."

Similar in all essential respects to the lend-lease agreements signed February 13 with Great Britain and on June 2 with China, the new Soviet agreement replaces the previous arrangements under which Russia was granted last November a non-interest bearing loan of \$1,000,000,000, followed early this year by supplemental credits of an unrecalled magnitude.

Under the original offer made by President Roosevelt and accepted by Soviet Premier Joseph Stalin, repayment of the non-interest bearing loan was not to begin until five years after the war. Under the new agreement, signed by the Ambassador Maxim Litvinoff and Secretary of State Hull tonight, the final determination of terms and conditions of settlement is deferred "until the extent of the defense aid is known."

**Supply Many Needs**  
In this connection, a State Department communique summarizing and interpreting the provisions of the mutual aid pact emphasizes that:

"The agreement reaffirms this country's determination to continue to supply in ever-increasing amounts aid to the Soviet Union in the war against the common enemy. The agreement also provides for such reciprocal aid as the union may be in a position to supply.

"But no matter how great this aid may prove to be, it will be small in comparison with the magnificent contribution of the Soviet Union's armed forces to the defeat of the common enemy."

**'Desire Better World'**  
The ceremony of signing took place at the State Department only a few hours after the White House announced that Soviet Foreign Minister V. M. Molotov had been in Washington and discussed with President Roosevelt and his advisors "fundamental problems of cooperation of the Soviet Union and the United States in safeguarding peace and peoples after the war."

The signing of the new mutual aid agreement was considered an important step towards this post war aim as indicated in the State Department's communique, which said:

"The agreement signed today adds the Soviet Union to the growing list of countries which have joined in a determination to take practical measures to create a better world hereafter."

More specifically, the agreement aligns Soviet Russia with Great Britain, the United States and China in a bloc of great powers pledged to establish a sound world economy after the war. In the words of article VII of the pact, these powers are pledged to action, "open to participation by all other countries of like mind," directed to the expansion of production, employment and exchange of goods, "which are the material foundation of the liberty and welfare of all peoples."

**British Sign Pact**  
LONDON, June 11 — (AP) — Russia and Britain signed a 20-year mutual assistance treaty, it was officially announced today.

The pact was signed May 26 and was "against Hitlerite Germany," the announcement for foreign minister Anthony Eden said.

The powers pledged themselves to rebuild Europe on terms of the Atlantic charter.

The 20-year treaty, which Foreign Commissar Vyacheslav Molotov signed at the foreign office here for Russia, provides "for common action to preserve peace and resist aggression in the post-war period."

It pledges the nations "not to enter into any negotiations" with Hitler's government or any German government that fails to denounce aggression.

**Satisfactory Conferences**  
Foreign Secretary Eden disclosed that the announcement of the treaty that Molotov had been in Washington, where he had "most useful and satisfactory talks with the president."

The United States government was kept fully informed of the negotiations for the treaty it was said.

The treaty fails to mention Japan.

## Ford Company May Make Gliders

DETROIT, June 11 — (AP) — Disclosure that the Ford Motor company is studying its equipment and facilities with a view towards making gliders for the army air corps was approved today by army authorities here.

Details of the glider production planned here were withheld.

## Two Hundred Pairs Women's Shoes Daily

Sedco Shoe Factory Manager States That Is Present Output

The Sedco Shoe factory is progressing in its output of shoes, Max Wolkowitz, general manager, stated Thursday, with the peak at the present time 200 pairs of shoes a day. Mr. Wolkowitz also said that as soon as the factory is completely organized and workers are more familiar with their duties, the output should reach 2,000 pairs a day.

At the present time there are eleven men and thirty women at work and each day one to two are being added to the list for training. Next week at least fifteen persons will be added to be trained, and from then on the daily addition will be increased as the training progresses. It is expected to be several weeks before the full force of 300 will be at work.

**Some Supplies**  
The company, at present, has enough supplies to manufacture women's shoes at full production for between four and five months with prospects good for obtaining additional materials. As soon as the plant gets under full production it is expected to carry on without any trouble.

Next week additional machinery will be received and installed immediately. Priorities for a time held up the operation of the factory, but release of some machinery has been made, making it possible to carry out the original plan for a factory of 300 persons.

**Making Women's Shoes**  
The style of shoe now being made is a women's novelty shoe and as soon as better organization is completed the manufacture of more staple shoes will get underway.

The workers start their work at 7:40 o'clock in the morning and work until 10 o'clock, then a ten minute rest period; work until 12 o'clock and have one hour for lunch. Work starts in the afternoon at 1 o'clock, continues until 3, at which time a ten minute rest period is held and the day's work is completed at 5 o'clock. The factory operates five days each week, Monday through Friday.

R. J. Parnell is president of the company, with Mr. Wolkowitz its general manager, and Bea Wideman, superintendent of the factory.

## Preparing For 1942 State Fair

Ernest W. Baker, secretary-manager of the Missouri State Fair states positively that there will be a fair, and a good one, this year, the week of August 23 to 30, to repeated questions from the public as to whether there is going to be an exposition.

Mr. Baker sent out questionnaires to those who have been exhibitors in the past, asking their opinion on a fair this year. The greater number were in favor of a fair, others who questioned the advisability of having the fair in the face of war conditions, said they would still be exhibitors and a third group said there should be a fair, even if it was necessary to cut the premiums.

Gaylord Heatn, of Lamar, who was in charge of the publicity last year has returned to Sedalia, and is again in charge of the publicity department for the 1942 exposition.

Among the main attractions this year will be noted bands of the country and Mr. Baker expects to know the last of this week just which bands will be here.

## House Passes Appropriation For The WPA

Futile Attempt To Abolish Relief Agency Made

WASHINGTON, June 11 — (AP) — A \$336,000,000 appropriation for the WPA was passed by the House early tonight as administration forces withstood a determined, two-day attempt to abolish the relief agency or reduce its funds.

As finally passed and sent to the Senate by a roll call vote of 277 to 52, the bill provided for only a fraction of the funds expended in WPA's peak year of 1939, when WPA carried three million persons on its rolls and spent \$2,230,000,000.

Earlier, the House had voted: 184 to 133 against an amendment designed to prevent the WPA from starting any new projects except those certified by the Secretary of War, Secretary of Navy, or Maritime Commission Chairman as essential to the war effort.

183 to 140 against sending the supply bill back to the appropriations committee with orders to cut the funds by one third and to turn administration of relief over to the states.

**Fights on Amendments**  
The hottest fights came on the amendment by Rep. May (D-Ky), chairman of the House Military committee, to restrict WPA to war projects, and on that of Rep. Taber (R-N.Y.) to return the bill to committee for revision.

Bitterly, Rep. Cannon (D-Mo), chairman of the Appropriations committee, protested that the May amendment was "so sweeping, so far-reaching, so devastating," that it would "gut and destroy" the whole bill.

May countered that he was only attempting to "improve" the bill, and argued that the amendment would "do away with the WPA in an orderly manner."

Taber contended that his plan of turning relief administration over to the states would cut administration costs and increase efficiency—a claim which Cannon denied.

Rep. Smith (R-Ohio), backing Taber's motion, maintained that the WPA "has been operated more from the standpoint of politics than from the standpoint of relief."

**Needs Been Pared**  
The administration forces rested their case chiefly on the contention that President Roosevelt, in submitting the estimates of WPA's needs, had pared them "to the bone."

On the other hand, those advocating even greater reductions or the agency's complete abolition said that unemployment had been greatly decreased as a result of the war stimulus to industry.

As finally passed, the measure carried \$280,000,000 in direct appropriations, plus reappropriations of \$56,000,000 left unexpended from last year's allocations. The Appropriations committee has estimated that it would provide for an average of 400,000 persons a month on WPA, starting July 1.

On a teller's count of 123 to 119, the House turned down a motion by Rep. Taber (R-Ky), ranking minority member of the Appropriations committee, to slash the allocation to \$112,000,000 on the grounds that war stimulus to industry had diminished its need.

By the more emphatic vote of 109 to 60, the chamber defeated a motion by Rep. Pearson (D-Tenn) which would have had the effect of abolishing the agency.

It also rejected, 106 to 87, an attempt by Rep. Hare (D-SC) to prevent the WPA from carrying on educational, cultural, recreational and industrial training projects for the fiscal year beginning July 1.

By standing vote of 91 to 66, the House then turned thumbs down on a motion by Rep. Wigglesworth (R-Mass) to hold the agency's funds down to \$100,000,000 for the balance of 1942, rather than give it \$280,000,000 for the next 12 months.

The votes followed a hot controversy on the floor, during which economy advocates argued that the agency had proved inefficient and unnecessary, while WPA supporters argued that it had an important place in the war program.

With the settlement of the case of Edith Lakin in criminal court Thursday the docket of the court was completely cleared, marking one of the rare occasions in its history on which no criminal cases are pending.

In the past term of criminal court all of the cases were disposed of without the use of a jury, thus saving a large amount of money for the county. The docket of the court was cleared also in January of this year.

## Vengeance In Executions

Czechs In Exile Vow Revenge On Nazi Atrocities

By J. WES GALLAGHER  
LONDON, June 11 — (AP) — The Czech-Slovak government in exile vowed revenge today for the mounting wave of Nazi executions which have reached perhaps 690 since the assassination of Reinhard Heydrich, the Gestapo's purge master and "protector" of the Czech homeland.

The Nazi executions continued their reprisals at an increased tempo. The Prague radio announced tonight that another 34 Czechs had been executed today, including ten women. This brought the official total to 340, not counting those put to death in the wiping out of the little town of Lidice.

At least another 350 persons were shot to death in that brutal reprisal, according to the estimate of an official Czech spokesman in London.

**Retribution Steps**  
These "barbarous acts" were protested in a fromal note to the allied governments which said:

"The Czech-Slovak government will take the necessary steps which it may regard as desirable to secure retribution for these atrocities and will relax no efforts to bring to account all those who committed these crimes or who were in any way responsible for them."

(Fears of just such reprisals were expressed, meanwhile, by the secret German radio station, known as the "station of the European Revolution," in a broadcast recorded in New York by the CBS listening station.

"Comrades," the announcer said, "an open word is imperative in the face of the mass murders of Lidice. If we don't do away with the gangster band of Nazis very soon, if we wait until Hitler is defeated on the field of battle, then the flood of revenge will break down on us. No affirmation that we had nothing to do with the Nazis will help us then."

The Czech-Slovak protest followed shortly after one broadcast by General Wladyslaw Sikorski, president of Poland, against "mass shootings" of Poles, "torture of tens of thousands" in concentration camps and "deportation of more than 1,500,000 people."

"Only by the announcement of retribution," he said, "and the application of reprisals whenever possible can a stop be put to the rising tide of madness of these German assassins."

## Lions Club Sponsors Benefit By Pettis Players Tonight

For the benefit of the local USO drive, the Pettis Players, sponsored by the Sedalia Lions club, will give a repeat performance of the Broadway hit, "You Can't Take It With You," three-act comedy by Moss Hart and George S. Kaufman, at the Smith-Cotton high school auditorium tonight at 8:15 o'clock.

This Pulitzer prize play first was presented by the Players on May 8 at the high school, under the sponsorship of the Horace Mann Parent Teacher association, and received high praise.

It is said that those responsible for the conduct of the war, from President Roosevelt down to the men in the ranks, have testified to the necessity of the USO as a "vital part of the job of winning this war."

### Large Sum Needed

The national United Service Organization office estimates that the program of the USO, to meet the war needs, will require \$32,000,000 or an average of 66 cents a month to pledge to every one of the 4,000,000 American fighters some measure of friendly and home-like hospitality when they are off duty and on leaves.

Pettis county's quota to help in this program is \$5,500. Part of this sum will be realized from the proceeds of "You Can't Take It With You."

The first contribution to the USO fund here was from the Musical Moments club, whose

## Free French Withdraw

At Bir Hacheim Had Given Axis Much Trouble

By NOLAN NORGARD  
LONDON, June 11 — (AP) — The melting pot garrison of Bir Hacheim, target of at least 13 land assaults and uncounted bombings in the battle of Libya, was withdrawn from that former southern anchor of the British line during the night.

The announcement of the withdrawal came tonight from the middle east command at Cairo as a sequel to the German high command's statement that Bir Hacheim fell this morning to Axis forces that stormed the fortified oasis from their encircling lines.

"On the orders of General (Neil M.) Ritchie, the garrison of Bir Hacheim was withdrawn on the night of June 10-11," said the Cairo communique.

"The Free French troops of the Garrison under General (Pierre) Koenig had for 16 days fought off large scale attacks by infantry, tanks and aircraft and inflicted heavy losses on the Axis forces."

"They played a vital part in upsetting the enemy's plans. Their magnificent fighting qualities have earned the admiration of the United Nations."

**'Dearly Sold To Axis'**  
The fortified oasis had been dearly sold to the Axis by the hardy fighters under the Alsatian General Koenig. Most of its defenders were Free Frenchmen. There also were leathery French Legionnaires from Syria, and fighters of other nationalities, even Germans opposed to Hitlerism, and a contingent of British Indians.

At the outset the direct assaults were entrusted almost exclusively to Rommel's Italian forces. Each wave was rolled back in turn and at one juncture the garrison messaged the taunt: "Send us more Italians." Later the Germans and their tanks, artillery and Stukas joined in laying a fiery siege.

Yesterday British armored and motorized forces, striking down from the north and assisted by the RAF, tried to break the Axis stranglehold and these strokes may have opened the way for withdrawal through the Axis encirclement.

Today's German communique said that "the fort of Bir Hacheim, southern pillar of the British defensive system, was this morning taken by storm after several days of bitter resistance by strong enemy units which had been encircled there."

Military circles in London said the immediate effect of the loss of Bir Hacheim was to assure shorter and safer Axis supply lines. Of itself, the loss was not, however, deemed a vital setback for the British and their allies.

# Roosevelt Second Front To Consider Add To Jitters of Wage Bill Fuehrer Hitler

Congressional Approval Of Wage Increase For Armed Men Is Given

WASHINGTON, June 11. — (AP) — The senate completed congressional approval today of a military wage adjustment bill fixing a minimum pay scale of \$50 a month for the armed forces, effective as of June 1, 1942.

Senate adoption of a conference report, approved yesterday by the House, sent the comprehensive pay measure to President Roosevelt for his consideration.

Estimated to cost an additional \$500,000,000 or more yearly, the bill would increase to \$50 a month the pay of army privates, navy apprentice seamen and men of equal rank in the marines and coast guard. Increases would be granted to all ranks up to and including second lieutenants and ensigns. Privates now get a minimum of \$21 a month.

**Expense Allowance Up**  
Rental and subsistence allowances of higher ranking officers also would be increased.

Final Senate action ended a month of controversy which twice saw the measure sent to conference as senators stood behind a vote to make the minimum pay \$42 a month. They receded from that position early this week.

A third effort to send the bill back to conference failed in the House before yesterday's overwhelming record vote was taken.

**Opposed to Some Features**  
Rep. Faddis (D-Pa.) objected to a Senate provision boosting the retirement pay of approximately 120 World War officers removed from the service, he said, for unfitness and also opposed making the legislation permanent. While finding no fault with the pay provisions themselves, Faddis unsuccessfully tried to have the legislation returned to conference to remove the features to which he objected.

The legislation boosts the base pay of privates, corporals, sergeants and second lieutenants in the army; apprentice seamen, second class seamen, first class seamen, petty officers and ensigns in the navy, and corresponding ranks in other service branches, such as the marine corps, the coast guard, the public health service and the coast and geodetic survey.

**Effective June 1**  
It provides for increased rental and subsistence allowances for all officers, and gives enlisted men a bonus of 20 per cent of their pay for sea duty or overseas service.

All the increases were made retroactive to the first of June. Estimated to add from \$400,000,000 to \$500,000,000 annually to the service payrolls, based on strength of last January 1, the legislation makes United States privates the second best paid in the world, being exceeded only by Australian Rookies who receive \$62.10 per month.

## Booster Program This Evening

The first of a series of five summer programs will start this evening Friday, June 12, at Liberty park in the band stand beginning at 8:15 o'clock. The programs this summer will vary from the programs in the past in as much as they will be entertainments with no contests, or prizes offered.

L. L. Studer, district storekeeper for the Missouri Pacific, will be the speaker of the evening and will be introduced by F. G. Rose, Chief Booster who will preside.

Public address system has been installed and suitable parking arrangements will be under the supervision of the American Legion and the public is cordially invited to attend these summer programs sponsored by the Missouri Pacific.

Tonight's program of entertainers include Neil and Eugene Hays instrumentalists and singers, Doyle Woodard, pianist, Ernest Mulberry vocalist, and the Missouri Pacific Buzz Sawyers Graden Chilcoat and Eugene Hayter fiddlers, George and Al Johnson vocalists, Rosalee and Lulamae Craig duet numbers, Pat Jonson, harp and guitar, Sarah Ellen Hayter, vocalist, and E. ## Fierce Battles Rage On The Kharkov Front

Nazis Throwing Infantry And Tanks At Defense

By HENRY C. CASSIDY

MOSCOW, Friday, June 12 — (AP) — The Germans have thrown strong tank and infantry forces against Russian defense positions on the Kharkov front, and fierce battles have developed, the government announced today.

Stubborn fighting continued to rage in the Crimea, where the Germans were smashing against the Soviet naval fortress of Sevastopol. The Red army was reported inflicting heavy losses on the Nazis in repulsing their attacks.

In three days of fighting there alone, the official midnight Soviet communique stated, nearly 15,000 German officers and men were killed. The Nazis lost more than 50 tanks and 60 planes in the same period.

The communique stated there were no significant changes on other sectors, although earlier bulletins had reported action over a wide front which, combined with the great land battles of the Crimea and the Ukraine, brought the war on the Russian front to the highest pitch of the year.

**Battles In The Skies**  
There was mass aerial combat at the Black Sea and again far to the north in the Arctic.

Nowhere did the Germans appear to be making any important progress.

In contrast to the pace of the blitz campaign last summer, Russian dispatches indicated that the Germans now are moving only at terrific cost through the meat-grinders of the Red army's defenses around besieged Sevastopol and in the Kharkov sector.

There were no details on the second battle of Kharkov, matching the two old adversaries, Marshal Semeon Timoshenko and Field Marshal General Fedor Von Bock, who already had faced each other in the battle for Moscow last year and in the first battle for Kharkov this spring.

The latest reports said Von Bock this time was taking the offensive, apparently seeking to regain ground lost to Timoshenko last month or to test out and wear down Timoshenko's remaining manpower and war material.

**Both Armies Strong**  
Both opposing armies in the Ukraine were reported strong despite the losses of the bitter fighting in May.

From Sevastopol, a thorn in the side of any German attempt to push from the Crimea to the Caucasus, Russian dispatches said the Germans were hurling whole divisions into repeated attacks which disregarded losses in a desperate attempt to capture the Red fleet naval base.

Red Star declared that the Russians, under almost incessant attack for seven days, were holding on stubbornly in their original positions. Some hill-top positions had been lost in earlier fighting, but the Russians said they were recaptured in see-saw combat.

## Canning Sugar Rush Still On

Registrations for canning sugar remained in the 400's Thursday as it has throughout most of the week, and at the close of the court house lobby at 5 o'clock yesterday afternoon a total of 435 applications had been received for the day. 420 were made Wednesday.

Registrars will continue to work at the court house through next Wednesday.

Women who contributed their services to the registering work Wednesday included Mrs. A. A. Studebaker, Mrs. Joe Quinn, Miss Patty Quinn, Mrs. D. Kelly Scruton, Mrs. Harry Harnsberger, Miss Dorothy Hedderich, Miss Patsy Rissler, Mrs. Ellsworth Green, Jr., Miss Hazel Barnett, Mrs. Fred Curtis, Mrs. W. B. Rissler, Mrs. E. F. Winfrey and Mrs. Terry.

Registrars Thursday, in addition to the regular OGD employee, Ruth Anderson, were Mrs. H. J. and Roberts, Miss Eula Pace, Mrs. Verna Winfrey, Miss Dorothy Hedderich, Miss Carolyn Carter, Mrs. Norman Bockelman, Mrs. J. O. Muster, Mrs. D. C. Davis, Miss Caroline Cloney, Miss Patsy Rissler, Mrs. C. A. Wright and Mrs. W. F. Keyser.

## Measures Taken To Speed Supplies From U. S. To Soviet Union

By WILLIAM T. PEACOCK  
WASHINGTON, June 11 — (AP) — The United States, Great Britain and Russia gave Adolf Hitler new cause for jitters today by disclosing they had reached a complete understanding in momentous conversations on many war problems including "the urgent tasks of creating a second front in Europe in 1942."

The understanding was arrived at during secret visits by Vyacheslav Molotov, the Soviet Foreign Commissar, to London and Washington, Russia and Great Britain entered into a 20-year mutual assistance treaty which among other things pledged them to "common action to preserve peace and resist aggression in the post-war period."

There was no formal pact as a result of Molotov's stay in Washington from May 29 to June 4, but, with the Russian leader safely back home, the White House today issued a statement which declared:

"In the course of the conversations, full understanding was reached with regard to the urgent tasks of creating a second front in Europe in 1942. In addition, the measures for increasing and speeding up the supplies of war materials from the United States to the Soviet Union were discussed. Further were discussed the fundamental problems on cooperation of the Soviet Union and the United States in safeguarding peace and security to the freedom-loving peoples after the war. Both sides state with satisfaction the unity of their views on all these questions."

**Pleased at Action**  
The language thus left deliberately open the question of exactly what was the understanding reached as to a second front. There have been reports, however, that Russia was dissatisfied because no second European front had been established, and the fact that an understanding had been reached with her was hailed enthusiastically by members of Congress.

Anthony Eden, the British Foreign Minister, described his government's pact with the Soviets as directed "against Hitlerite Germany." It contains no mention of Japan.

To observers in this country, however, there seemed little reason to doubt that Tokyo must view with foreboding this disclosure of closer understanding between Moscow, Washington and London.

The White House did not make known what officials accompanied Molotov here, presumably, however, there were high representatives of the Red army and navy since it was announced that those participating in the conversations for the United States included General George C. Marshall, the army chief of staff, and Admiral Ernest J. King, the chief of naval operations and commander-in-chief of the fleet.

**Participation In Conferences**  
Other participants included Maxim Litvinoff, the Soviet ambassador; Harry Hopkins, the lease-lend administrator, and Secretary of State Cordell Hull.

(It was announced in London that those participating in the conversations there included General Isayev, representing the Red army, and Admiral Kharlamov, representing the Red navy.)

Molotov, 52, is the right hand man of Premier Joseph Stalin in the Soviet government. During his stay here he was the guest of President Roosevelt at the White House. The announcement of the understanding said:

"At the conclusion of the visit the President asked Mr. Molotov to inform Mr. Stalin on his behalf that he feels these conversations have been most useful in establishing a basis for fruitful and closer relationship between the two governments in the pursuit of the common objectives of the United Nations."

## John Ryan Seeks Nomination For County Recorder

John C. Ryan, former Sedalia business man now engaged in farming, has announced his candidacy for the Republican nomination for the office of Recorder of Deeds for Pettis county.

John, as he is known to his many friends throughout the county and this Central Missouri section, has never before sought public office although he has taken an active interest in the civic and public affairs of Sedalia and Pettis county.

Practically all of John's mature life has been spent in the automotive business. At the age of twenty, he left Drury College to operate his own Ford agency, and from that time on, until restrictions became so severe on the sale of new cars in February of this year, he discontinued in that line of business.

With the exception of five years, from 1936 to the fall of 1941, when John was new car sales manager for the Thompson Chevrolet Company, he has always owned and managed his own business. In October 1941, he left Thompson's to open the John Ryan Ford Motor Company at 206 East Third street, and he operated this business until new cars were frozen in February.

Following the closing of his business, Mr. and Mrs. Ryan and two daughters, Sandra, 7 years, and Carolyn, 4 months, moved to his farm on Route No. 4, Sedalia, where since that time he has been engaged in his operation.

Mr. Ryan while engaged in business in Sedalia was a member of Kiwanis, and several other civic and fraternal organizations, and through his associations with people in the business, civic, and social fields he has made a large number of friends many of whom will be glad to know of his announcement for the office he seeks.

John pledges that should he be nominated and elected to office, he will give his full and careful attention to its duties, and will give the people of Pettis county an honest and impartial administration.

## Book Review At Club Meeting

Mrs. Homer Cunningham gave a review of the book, "The Moon Goes Down" by John Steinbeck at a meeting of the Hughesville Women's Extension club at the Hughesville school last Wednesday.

She stated that a theme of rising hope compared to the moon's going up after its downward cycle, is apparent in the book and that the story closes on a note of victory.

Through various incidents, she said, the book depicts the lives of people in an average community in occupied countries, and their open feud with the Nazi soldiers.

Mrs. Charles Rages, president, opened the all-day meeting. A covered dish lunch was served at noon. Hostesses were Mrs. Joe Elliott, Mrs. George Thornton, Mrs. James Wiley and Mrs. H. J. Tevebaugh.

The following members of the Longwood club were guests: Mrs. Van Jones, Miss Elizabeth Scott, Mrs. Lottie Baker, Mrs. Pam Grinstead, Miss Louise Grinstead and Miss Susan McNish.

The next meeting of the club will be at the Hughesville school with Mrs. Leland Beal. Mrs. George Thornton and Mrs. Harold Conway as hostesses.

Mr. and Mrs. Louis Walch and son, Dickie and daughter, Carolyn, are leaving today for their home at Ottumwa, Iowa, after a visit with Mrs. Walch's mother, Mrs. Catherine Renfrow, 615 West Fourth street.

Mrs. S. W. McClure of the Quisenberry Community suggests that in keeping moths from getting in woolens, which is one of the Homemakers patriotic duty this year, the use of cotton bags be made. Mrs. McClure says, "be certain that the garments are free from moth eggs, larvae, or moths. Then place them in cotton bags and close them securely. Since moths do not care for anything but wool, they are not likely to go through the bag." It is very necessary in doing this that the garments be well brushed and sunned or cleaned previous to the time they are placed in the bag. Then it is also wise to put them in a place where there has not been moths. One of the safest things to do is to place paradichlore benzene in the clothing or articles stored since this chemical not only kills moths, but the moth eggs and larvae as well. Mrs. McClure's suggestion that preserving woolens is a patriotic duty is being carried out further by Mrs. Paul Read of the same community who has an old woolen bathing suit that she is making a modern style seersucker bathing suit over the old woolen part. In this way she will be saving the amount of wool that goes into the suit. This idea could be well used on suits that have been out-grown, faded or moth eaten.

The practice which is followed by many who successfully grow fall cabbage is to plant the seed about June 15th. This seed may be planted in a plat and the plants transplanted to the vegetable area, or it may be sown directly in the row where the cabbage is to grow, thinning the plants after they have started to develop. Planting distance is the same as for early cabbage.
